Royal Helium Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Six Months Ended June 30, 2021 and 2020

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Royal Helium Ltd. (the “Company” or “RHL”) (formerly RHC Capital Corporation) is focused on primary helium production from its helium leases and permits in Saskatchewan, Canada. On February 27, 2017, the Company began trading on the NEX board of the TSX Venture Exchange (“TSX-V”) under the trading symbol “RHC.H”. On July 25, 2017, the Company resumed trading on the TSX-V under the trading symbol “RHC”. The address of its registered office is 224 4th Avenue South, Suite 602, Saskatoon, Saskatchewan, S7K 5M5.

The Company was incorporated under the laws of the Province of Ontario on August 15, 2008 and continued into the Province of Saskatchewan on May 1, 2019.

Going concern of operations

The business of exploring for helium involves a high degree of risk and there can be no assurance that planned exploration and evaluation programs will result in profitable helium operations. The continuance of the Company is dependent upon completion of the acquisition of the exploration and evaluation properties, the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying helium claims, the ability of the Company to obtain necessary financing to complete the development and future profitable production or, alternatively, upon disposition of such property at a profit. Changes in future conditions could require material write downs of the carrying values of the Company's assets.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

As at June 30, 2021, the Company has a cumulative deficit of \$28,423,701 and is not yet generating positive cash flows from operations. These consolidated financial statements were prepared on a going concern basis in accordance with International Financial Reporting Standards. Funding for operations has been obtained primarily through share offerings and management believes working capital at June 30, 2021 is sufficient to support planned operations for at least the next twelve months. Future operations are dependent upon the Company's ability to finance expenditure requirements and upon the achievement of profitable operations. Management believes it will be successful in raising the necessary funding to continue operations in the normal course of operations; however, there is no assurance that these funds will be available on terms acceptable to the Company or at all. These consolidated financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of compliance

These financial statements have been prepared in conformity with International Accounting Standard (“IAS”) 34, Interim Financial Reporting, and do not include all the information required for full annual financial statements in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). It is suggested that these financial statements be read in conjunction with the annual audited consolidated financial statements for the year ended December 31, 2020.

The condensed interim consolidated financial statements of the Corporation for the six month periods ended June 30, 2021 were authorized for issuance by the Corporation's board of directors on August 30, 2021.

Basis of preparation

These condensed interim financial statements have been prepared on a historical cost basis except for certain financial instruments which have been measured at fair value. These financial statements are prepared in Canadian dollars, which is the Corporation's functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

New and future accounting standards and interpretation

During the period ended June 30, 2021, the Company did not adopted any new IFRS standards, interpretations, amending and improvement of existing standards.

The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IAS 1 – Presentation of Financial Statements (“IAS 1”) was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

IAS 37 – Provisions, Contingent Liabilities, and Contingent Assets (“IAS 37”) was amended. The amendments clarify that when assessing if a contract is onerous, the cost of fulfilling the contract includes all costs that relate directly to the contract – i.e. a full-cost approach. Such costs include both the incremental costs of the contract (i.e. costs a company would avoid if it did not have the contract) and an allocation of other direct costs incurred on activities required to fulfill the contract – e.g. contract management and supervision, or depreciation of equipment used in fulfilling the contract. The amendments are effective for annual periods beginning on January 1, 2022.

Additions – decommissioning	104,492	-
Balance, end of period	\$ 9,754,934	\$ 2,519,583

The Company holds helium exploration permits and helium leases over land in Saskatchewan. The Company has annual lease expenditure commitments of approximately \$50,000 and annual permit expenditure commitments as follows: 2021 - \$310,500, 2022 - \$338,700, 2023 - \$419,600 and 2024 - \$384,700.

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	June 30, 2021	December 31, 2020
Accounts payable	\$ 476,976	\$ 341,517
Accruals and others	9,100	13,900
	\$ 486,076	\$ 355,417

7. Decommissioning liabilities

	June 30, 2021	December 31, 2020
Balance, beginning of period	\$ -	\$ -
Additions	104,492	-
Balance, end of period	\$ 104,492	\$ -

The total of the decommissioning liabilities are estimated based on the Company's net ownership interest in all the wells, the estimated costs to reclaim and abandon the wells and facilities and the estimated timing of the costs to be incurred in future periods. Management of the Company has estimated that based on their net ownership interest, the total undiscounted cash flows required to settle the obligations will be \$140,428. The obligations have been discounted using a risk free rate of 3% and an inflation rate of 2% per year. Most of these obligations are not expected to be paid until approximately 12 years in the future and will be funded from general Company resources at that time.

13. CONTINGENCIES AND COMMITMENTS

Contracts

The Company is party to certain management consulting contracts. Upon termination of these contracts, the Company will be required to make payments of \$45,000 pursuant to the terms of these contracts. The Company also committed to a payment of \$19,500 upon receipt of final deliverable. As a triggering event has not taken place as at June 30, 2021, these amounts have not been recorded in these consolidated financial statements.

Environmental contingencies

The Company's exploration and evaluation activities are subject to various federal and provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

Property expenditure commitments

See note 5.

Legal matters

From time to time, the Company is named as a party to claims or involved in proceedings, including legal, regulatory and tax related, in the ordinary course of its business. While the outcome of these matters may not be estimable at period end, the Company makes provisions, where possible, for the estimated outcome of such claims or proceedings. Should a loss result from the resolution of any claims or proceedings that differs from these estimates, the difference will be accounted for as a charge to net loss in that period.

Novel coronavirus

The Company's operations have not been significantly affected by the effects of the widespread global outbreak of the COVID-19 virus. The Company has seen cost increases associated with mandated safety measures. The Company cannot accurately predict the future impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company. Should the economic and market disruption resulting from COVID-19 continue for an extended period of time, the Company's operations and ability to finance its operations may be negatively impacted.

Financial risks factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk), credit risk and liquidity risk. Risk management is carried out by management under policies approved by the Board of Directors. The Company's overall risk management program seeks to minimize potential adverse effects on the Company's financial performance.

(a) Market risk

Foreign exchange risk

Foreign exchange risk arises when assets or liabilities are denominated in a currency that is not the entity's functional currency. The Company does not hedge foreign currency exposures. All of the operating assets were located in Canada and majority of the Company's liabilities were also settled in Canada, therefore the Company does not have any significant foreign currency risk.

(b) Credit risk

The maximum exposure to credit risk for deposits approximates the amount recognized as cash, amounts receivable, and environmental deposit in the consolidated statements of financial position. Bank deposits are held with reputable Banks, therefore credit risk is low. The Company does not hold any collateral as security.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company's financial liabilities comprise accounts payable and accrued liabilities which are due within 30 days.

The Company mitigates liquidity risk by planning its project expenditures in advance of undertaking significant commitments. The Company anticipates that it will continue to have adequate liquidity to fund its financial liabilities through its future cash flows.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2021, the Company had a cash balance of \$15,938,971 (December 31, 2020 - \$5,856,878) to settle current liabilities of \$486,076 (December 31, 2020 - \$355,417).

(d) Commodity price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, as it relates to helium to determine the appropriate course of action to be taken by the Company.

15. FINANCIAL INSTRUMENTS (continued)**Capital management**

The Company defines the capital that it manages as its working capital. The Company's objectives when managing capital are to manage its business in an effective manner with the goal of increasing the value of its assets. The Company regularly monitors its available capital and, as necessary, adjusts to changing economic circumstances and the risk characteristics of the underlying assets. In order to maintain or adjust capital requirements, the Company may consider the issuance of new shares, the entry into joint venture arrangements or farm-out agreements, or engage in debt financing.

There were no changes in the Company's approach to capital management during the period ended June 30, 2021 and December 31, 2020.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSX-V which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of June 30, 2021, the Company believes it was in compliance with Policy 2.5.
